INSTRUCTIONS

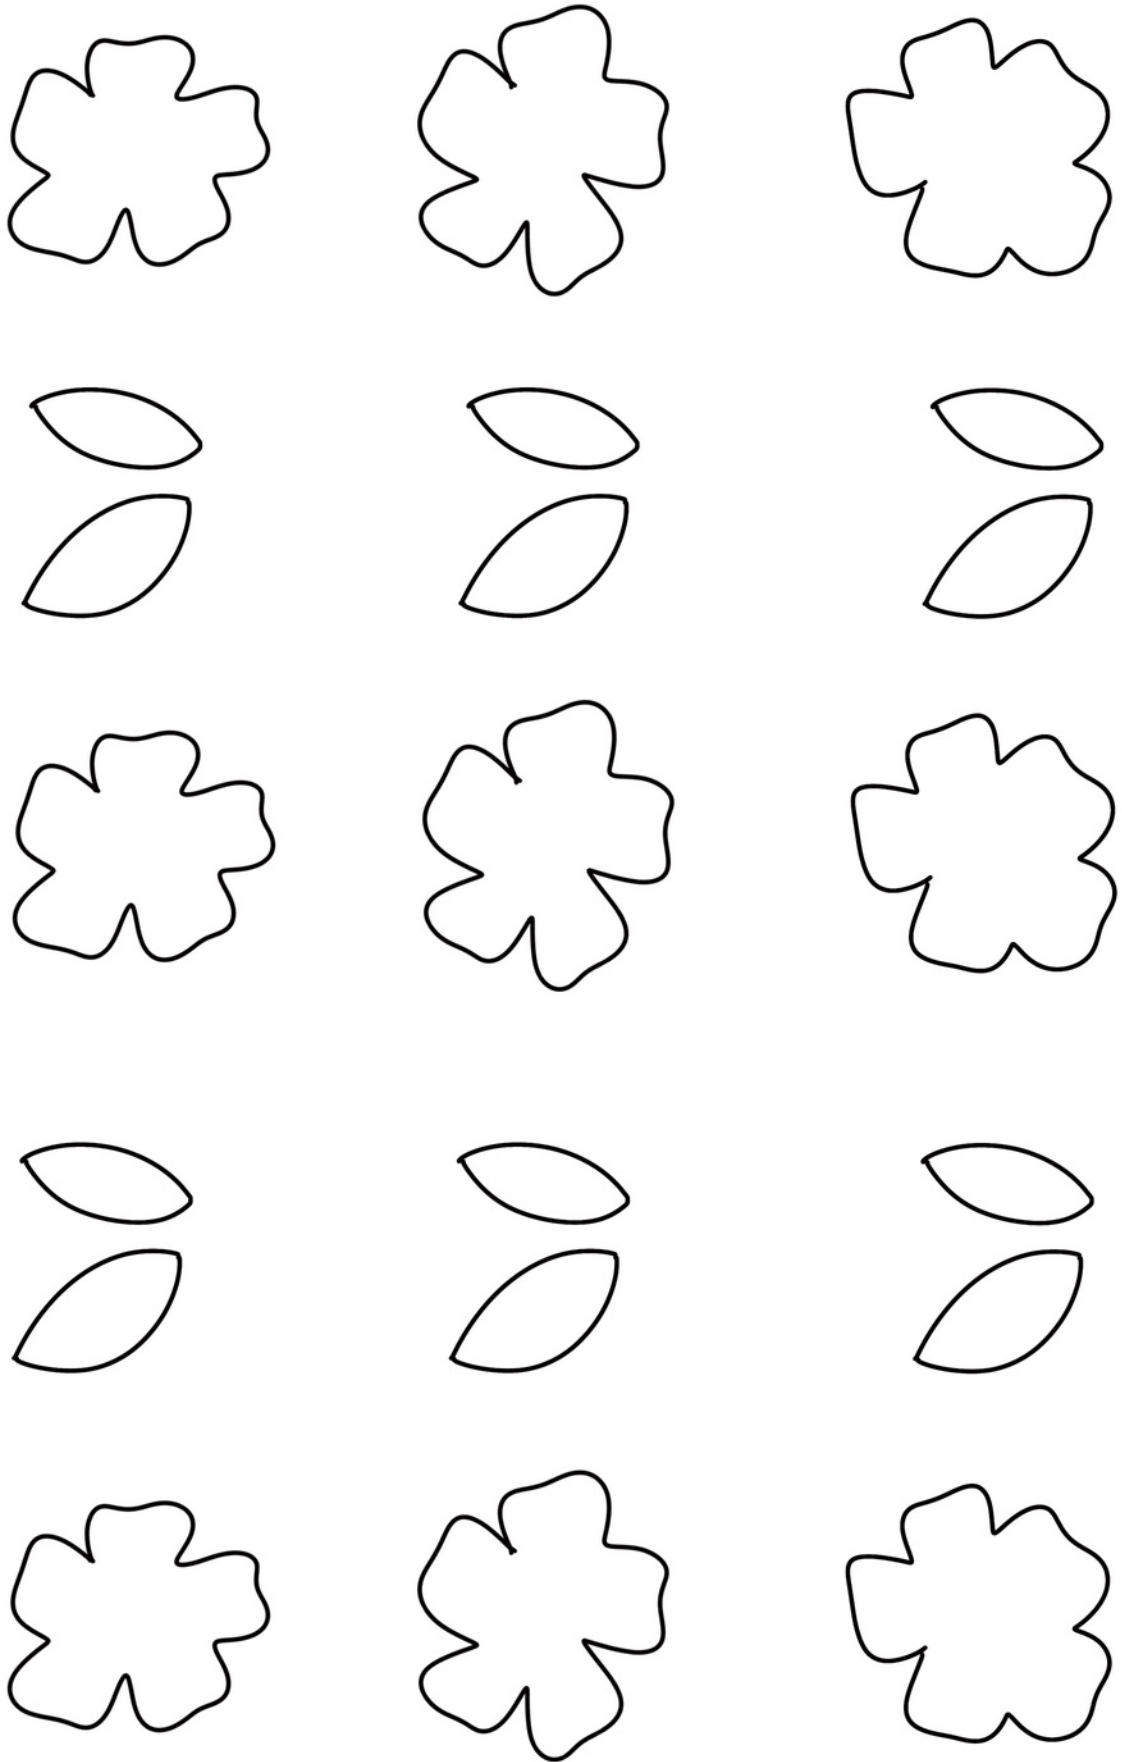

The Floral Fiesta Set is meant to be imperfect. From the flowers and dots, to the imperfect color, this is meant to look whimsical and handmade. Make this set your own; sketch on the flowers free hand, change up the colors. If you feel better with a pattern, there is one attached.

1. Use a pencil or water-based marker to sketch on the flowers. These are supposed to be imperfect and all slightly different. If you prefer, there is a pattern below. Use NCR paper to trace the flowers by pressing firmly with a pen as you trace over the design.
2. To begin, trace one flower. Then, rotate the plate and sketch one flower directly opposite the first one.
3. Now, rotate the plate so that the two flowers are on the right and left. Trace one flower at the top, about halfway between the first two flowers. Rotate the plate again and sketch a flower directly across from the last one.
4. Rotating as you go, sketch a flower in the space between each of the 4 previous flowers.
5. Next, sketch a set of leaves between the flowers.
6. Apply 2 coats of Turquoise to each flower using a detail brush.
7. Next, fill in the leaves with 2 coats of Guacamole using a liner brush.
8. Use a pencil or water-based marker to sketch a line that falls 1/4" inside the center of the bowl, this will create the rim. Then, sketch another liner about 1/2" down to create the band inside the rim.
9. Dip the end of a detail brush into Sunny Side Up paint. Tap a dot on the outside edge of the plate. Continue until you go all the way around.
10. Use a liner brush to paint 2 coats of Pumpkin Pie to the band under the rim.
11. Load up a small brush with Blue Lagoon paint. Press in the center of each flower to with one generous coat.
12. Dip the handle of the detail brush into Pumpkin Pie paint. Apply a ring of small dots around the blue center of the flowers.
13. Next, paint the rim of the plate with 2 coats of Red Hot, painting around the flowers and dots down to the first pencil line.
14. Dip the end of a detail brush into Blue Lagoon paint. Tap a dot under the orange band. Continue until you go all the way around the band.

TIPS

- Remember this is supposed to be funky and hand-painted, don't stress for perfection. It's better if it's more loose.
- When making the dots on the border, we used the tip of the paintbrush to get a more imperfect dot. You could also use the handle end of a paintbrush dipped into paint to apply the dots. This will give a more uniform dot.
- We intentionally did only 2 coats of paint to make the color uneven, highlighting the handpainted aspect. If you prefer, you could do 3 coats of a more solid color.
